

ACTIVITY 1

This activity suits
small groups
Age 10 +

HAZARD RESPONSE TEAM

TASK

Group game to work together to move a hazardous liquid without spilling a drop.

EQUIPMENT

4 x 5m lengths of string or cord.
1 x 1m length of bungee cord or elastic
1 cylindrical container such as an old paint tin
1 plastic crate that the cylindrical container will fit in.
1 bucket of water
Cones/rope to mark out 'hazardous area'

An large outdoor space (10m x 10m)

ACTIVITY

- Mark out a 'hazardous area' as space suits with cones/rope.
- Place plastic crate within the area.
- Gently stretch and tie elastic around cylindrical container then take it off and tie lengths of string or cord at right angles. Place outside area.
- Fill container to the brim with water and place about 5 metres from plastic crate within hazardous area.
- Make up a fun story for group to follow to work together to move the 'hazardous liquid' into the 'safe container' in the fastest time without spilling a drop.
- Challenge your teams !
